NEW-ENGLAND

Mutual Life Insurance Company,

BOSTON, MASSACHUSETTS.

ESTABLISHED 1843.

Branch Office in Metropolitan Bank Building, 110 Broadway N.Y. City.

CAPITAL AND ACCUMULATION OF PREMIUMS TO MEET LOSSES OVER ONE MILLION.

After paying, among all holding policies, in cash [not in scrip] dividends, amounting to

\$181,000.

The Surplus is divided among all the members IN CASH thus affording a good and certain rate of interest upon the outlay of premiums and avoiding the large and unnecessary accumulations of unpaid dividends, of uncertain tendency and erroneously called capital. One half of the first five annual premiums on life policies loaned to insureds if desired, the remaining half may be paid quarterly. The premiums are as low as those of any reliable Company.

This is the oldest American Mutual Life Insurance Company, and one of the most successful.

Insurance may be effected for the benefit of married women beyond the reach of their husband's creditors. Creditors may insure the lives of debtors. Blank form of application for insurance, or the Company's pamphlet, containing the charter, rules and regulations, also the annual reports showing the condition of the Company, will be furnished gratis.

WILLARD PHILLIPS, President.

DIRECTORS.

IMPORTANT TO BILLIARD PLAYERS

For Sale at the Office of Publication,

71 Gold Street, New York.

PRICE \$3.

BILLIARDS

Without a Master.

The above named work, the first American Publication of the kind, is illustrated by fifty fine copper plate diagrams, each containing from one to twenty four shots, from which sufficient knowledge may be acquired to enable the player to accomplish any possible stroke on the billiard table, all of which are fully explained on the pages opposite to the respective plates. The work contains all the latest and original inventions in the shape of a chart or series of strengths necessary to be used in making each shot, of an arrangement so simple that it can be comprehended by all, and will be found of the highest importance in the society and academy, as every shot there delineated has been graduated by it, and the necessity of strength necessary to be used is given in the description annexed to each plate. It contains also, a full and complete set of rules for the government of the game of billiards, and the various games of pool, ready to players; advice to amateurs, with a variety of explanations, interesting to all connected with billiards or billiard playing. To keepers of billiard rooms, the "Rules" are worth more than the price of the work, and the hints and the advice are invaluable. Accompanying the work is a treatise on the origin, rise, and progress of the game. It is also embellished by a fine steel plate frontispiece, showing a billiard table and players in position. The above work is the most complete one of the kind ever produced in any part of the world, and the only one in which the theoretical science and philosophy of the game has ever been explained.

A CURIOSITY!!

A PUMP THAT NEEDS NO REPAIRS. HOW CAN IT BE? READ, CALL AND EXAMINE

E. G. DAY & CO'S

Imperial Double Action Anti-Freezing Iron Force Pumps, Arranged for Wells, Cisterns, Ships, Mines, Factories, &c.

A brief examination of the Imperial Pump will convince any one that it is not only the cheapest, but that it is the most reliable, most durable, and most simple in its construction of any in the market. The more important improvements in this Pump are:

1st. The PAKING in the pump, which is entirely a matter of great importance (Pumps) is so arranged that it can be adjusted at any time, by operating two screws on the outside of the Pump; so that a New Packing is not required oftener than once in five or six years in ordinary cases. 2d. In regard to FREEZING, it is so arranged in perfect self-reliance in a very simple manner. Always self-operating, so as to let the water draw back into the Well when not in use, if desired, thus completely shutting out any great objection heretofore connected with Pumps in cold climates. As FIRE or GARDEN ENGINES, nothing can be more satisfactory, throwing a steady stream of water from 40 to 75 feet from the end of the hose pipe. They are applicable to Wells of any depth, and all varieties of perfect. Any one can readily understand their construction, without the aid of mechanical skill and genius. Samples may be seen at our office. All orders will meet with prompt attention.

Attention is particularly invited to the beautiful exhibition of **SPRING CHAIRS**, called by some the "Memoric Chair," from its highly soothing qualities to the fatigued or restless. This Chair has received Premiums at the Great World's Fair in London and at the Crystal Palace in New York, and is confessed by all who know it, to be without a rival for elegance, luxury and durability.

In the assortment may be found the celebrated

AMERICAN LADIES SEWING CHAIR,

Office and Counting Room Chair, Parlor, Library and Hotel Chair, etc. The public may feel assured they are worthy their examination. Ladies are particularly invited to call and inspect.

The same principle is applied to seats for steamships and Packets, and is pronounced upon years experience by one of the best navigators and Captains sailing out of this port, as being in his opinion indispensable for such vessels, as designs to furnish their passengers with the highest class of accommodations. We are permitted to refer to Capt. Barry of the steamer *CONTRACTA*, which is the second steamer he has had supplied with these seats.

This place is also the exclusive Agency of

SOUTHGATE & FISKE'S PATENT SCREW WRENCHES,

THE BEST WRENCH YET MADE.
